Vision
To provide leadership for family and population research

Mission
• Promote cutting-edge, empirically-based and policy-relevant research
• Provide training in social science research
• Foster collaborations among academics and policy makers

International Advisory Board, 2015-2018

The Centre for Family and Population Research (CFPR), funded by NUS in 2014, is an interdisciplinary centre in the Faculty of Arts and Social Sciences. It is dedicated to the scientific advancement of research and training in the study of trends, determinants, and consequences of family and population changes, particularly in Asia.

CFPR aims to foster cross-disciplinary collaboration between students, researchers, practitioners, and policy makers. The goal is to contribute to empirically based understanding and policymaking on critical issues related to the family and population resilience. The Center adopts life course and internationally comparative perspectives.

Co-Directors
Prof Wei-Jun Jean Yeung, Sociology and Asia Research Institute
Prof Catherine Tang, Psychology

Deputy Directors
A/Prof Bussarawan (Puk) Teerawichitchainan, Sociology
A/Prof Feng Qiushi, Sociology

Steering Committee Members
A/Prof Vincent Chua, Sociology
Prof Liu Haoming, Economics
A/Prof Maznah Mohamad, Malay Studies
A/Prof Leher Singh, Psychology
A/Prof Tan Ern Ser, Sociology

Main Research Themes
- Fertility and Marriage, Family Policies
- Aging and Health
- Children and Youth Development
- Intergenerational Relations and Transfers
- Changing Family Living Arrangements and Family Values in Asia
- Migration and Integration
- Human Capital and Labor Market
- Gender Relations

Research Activities
- Recruit top family and population scholars and students to build a critical mass of expertise in NUS
- Provide seed grants for research
- Provide visiting fellowships to international scholars in family and population studies
- Conduct cutting-edge and policy relevant research on family and population topics
- Organise thematic symposia and international conferences
- Organise regular seminar series and workshops on family demography and population topics

Training Program
CFPR provides short and effective courses on social research methods conducted by top quality faculty members within NUS campus. The courses aim to strengthen research and practice capacity and enhance on-the-job human capital. Participants will receive a certificate of attendance from NUS. Competitive merit-based scholarships are also available for full time NUS students.

For more details on the list of courses, schedule and course fees, please visit our website: www.fas.nus.edu.sg/cfpr

Research Positions within CFPR
Applications are invited for various research positions within CFPR to work on research projects on family and population issues.

CFPR Research Scholarships for PhD candidates
The Centre offers up to two scholarships per Academic Year to outstanding PhD candidates interested in conducting research on family and demographic topics

Summer Internships
CFPR provides summer internships for local and international students to gain practical work experience in providing research and administrative support to the Centre. Interns will be able to engage in research undertaken by the Centre and work under the direct supervision of the Centre's research staff.
