   (ii) Section headings will not be in capitals.
   (iii) Section headings will be in bold print.
   (iv) There will be no underlining of section headings.

3. Sub-Section Heading
   (i) Sub-section headings will be located at the left margin.
   (ii) Sub-section headings if numbered, will follow the same system adopted for the section headings. For example, a subsection may be numbered 2.3.5.

   (ii) If data presented have been computed, appropriate information should provided (in place of source of data) directly below the table(s).
   (iii) Similar information should be provided in the case of figures presented.

7. Documentation
   Almost all works rely on primary and secondary sources of data and information. Law and ethics require that these sources be acknowledged. All HT writers should follow the following format for documentation:

   The author-date system: authors’ names and publication dates are given in the text, usually in parentheses and keyed to a list of works cited. This list - the bibliography, to be arranged alphabetically - is placed at the end of the HT.
The following illustrate the author-date system:

(i) Form. The basic reference in this system consists of the last name of the author and year of publication of the work.

- e.g.: Smith (1978); Smith & Jones (1979)

Where you are citing two publications of Smith in 1978, the following should be adopted: Smith (1978a), Smith (1978b).

(ii) A specific page, section, equation or other division of the cited work should be as follows:

- Smith (1978, 74)
- Smith (1978, Sect 2.5)
- Smith (1978, 80-85)
- Smith (1978, eq.[25])

(iii) Where the reference is to a volume and page numbers, the following form is adopted:

- Smith (1978, 3:125)
- Smith (1978, 3:50-55)

(iv) Where the reference is to a volume only, then use the following:

- Smith (1978, vol 3)

(v) Where a work does not carry the names of individual authors, but is published or sponsored by government, agency, corporation, etc., then it is to be cited thus:

- Monetary Authority of Singapore (1983)
- World Bank (1991)

(vi) Where two or more references are cited, then the following form should be used: (Smith, 1973; Chan 1973; Wong 1972a)

(vii) Material obtained from the web should be cited in the text and added to the bibliography giving as much information as possible about the source and authors

- Citation of material derived from interviews, letters, should be cited as follows:
- (letter to the author, 11 June 1991)
- (interview, 11 June 1991)

8. Footnotes

Under the author-date system sources of materials are incorporated in the text as indicated above. Footnotes, typed in single-spaced, and placed at the bottom (foot) of the page, numbered consecutively in each chapter, thus become explanatory notes. These are to be used to explain (related) facts etc. which you feel do not belong directly in the text. They may also incorporate or elaborate upon certain ideas.

9. Bibliographies

The bibliography, arranged alphabetically, may be divided into sections, should you see the need for it. All details of the published work should be included. Please adopt the following forms:

- Books and journal titles must be in italics or underlined.

- Note that a single-author entry comes before a multi-author entry beginning with the same name.

- Two or more works by the same author and published in the same year are distinguished by letters after the date:

  - Smith, John (1975a)
  - Smith, John (1975b)

- Two or more works by the same author but published in different years should be listed chronologically.
