**Notes for Contributors****Theory, Culture & Society Manuscript Central Website**

*Theory, Culture & Society* is now edited and refereed electronically. This means that authors and referees must submit manuscripts or obtain articles to referee via the *Theory, Culture & Society* Manuscript Central website. This involves going to the site at:  
<http://mc.manuscriptcentral.com/tcs>

**Preparation of Manuscripts**

1. Authors should submit their manuscript, along with an abstract of 200 words.
2. Authors should also provide 3–7 keywords which must be selected from the keyword list available on the TCS Manuscript Central website and need to be keyed in separately in the appropriate field when the article is uploaded. The keywords are essential in helping editors select referees from our referees' database. If you have difficulty matching keywords, or have suggestions on ones to be added, please let us know.
3. To protect anonymity, please make sure that you do not include your name anywhere within the main document (e.g. as a running head or at the end).
4. The article should begin with a separate cover page bearing only the title.
5. The number and length of notes should be strictly limited. They should be numbered serially and included at the end of the text prior to the references section.
6. Please make sure you insert page numbers into your manuscript.

**Format of References in the Text**

Identify all references to books, monographs, articles and other sources at an appropriate point in the main text by author's last name, year of publication, and pagination where appropriate, all within parentheses. Specify subsequent citations of the same source similarly – do not use *ibid.*, *op cit.* or *loc. cit.*

If the author's name is in the text, use only the year of publication in parentheses:

Lash (2001)

If the author's name is not in the text, include both the author's name and year of publication separated by a comma within the parentheses:

(Bauman, 1999)

Page numbers follow year:

(Beck, 2002: 31–2)

With dual authorship, give both names; for three or more use 'et al':

(Bennett et al., 1986; Hardt and Negri, 2000)

If there is more than one reference to the same author and year, distinguish between them by use of letters a, b etc. attached to year of publication:

(Foucault, 1979a)

Enclose within a single pair of parentheses a series of references listed alphabetically separated by semicolons: (Bourdieu, 1984; Dimaggio, 1987; Lamont, 1988)

**Format of References**

List all entries cited in the text, or any other items used to prepare the manuscript, alphabetically by author and year of publication in a separate references section at the end of the article. For typing format, see examples below:

Pieterse, J.N. (1997) 'Multiculturalism and Museums: Discourse and Others in the Age of Globalization', *Theory, Culture & Society* 14(4):123–46.

**Format of Quotations within the Text**

For quotations within the text please make sure to use single inverted commas on all occasions, except for a quotation within a quotation which should be placed within double inverted commas. Quotations longer than two or three sentences should be put in an indented paragraph format without the use of inverted commas.
