GENERAL INFORMATION

A Master’s thesis must make some contribution to knowledge and not be mere collation of existing material. A PhD thesis must make a significant contribution to the knowledge of the subject concerned or provide evidence of originality either by the discovery of new facts or by the exercising of independent critical ability.

Work which has been submitted for another degree, or for which a degree has already been conferred by the University or any other university, may not be submitted again as a thesis but you are not precluded from incorporating part of such work provided that, in the thesis, you clearly indicate the part of the work which has been incorporated. Please note that any work carried out before your enrolment in the University cannot be used for submission in a thesis examination, unless you have obtained approval from your supervisor and the Faculty/School.

The thesis must be written in English, unless the Faculty/School has granted approval for the thesis to be written in a language other than English. A thesis in the Departments of Chinese, Japanese and Malay Studies may be written either in English or in Chinese, Japanese or Malay respectively.

Please consult your supervisor on any other specific guidelines or requirements as set by your Faculty/Department.

Before submission of the thesis, you should seek consent from copyright owners for the inclusion of any third party proprietary/confidential intellectual property in the thesis.

Politically and commercially-sensitive information; or proprietary/confidential information which is not critical to the thesis and for which consent is not granted, should be excluded from the thesis. If necessary, such information could be included as appendices instead and be excluded from the final thesis to be uploaded to the Electronic Thesis & Dissertation (ETD) System.

1. Thesis Title

If the thesis title differs significantly from the original approved title, the candidate must request for a change of title using the prescribed application form (797/92A) at least one month before the thesis is submitted for examination. The form can be downloaded at [https://myportal.nus.edu.sg/studentportal/eservices/gd/](https://myportal.nus.edu.sg/studentportal/eservices/gd/).

2. Word Limit

The word limit for the thesis (including footnotes but excluding appendices, bibliography, maps, charts, statistical tables, graphs, illustrations, etc.) is as follows:

<table>

### INSTRUCTIONS ON ELECTRONIC THESIS SUBMISSION

1. **Electronic Thesis**

   Submission of the final thesis in electronic format is compulsory for all research masters and doctoral degree students before the degree can be conferred. The electronic copy of the thesis must be in Adobe Acrobat Portable Document Format (PDF). Students will not be required to submit any hard bound copy of the thesis to the Registrar’s Office. Some departments may, however, have their own requirements. Students should check with their respective department.

   The format of the electronic thesis is generally the same as the format of thesis for examination/re-examination. Additional requirements for the electronic thesis are as follow:

   (i) **Thesis Title Page (for final submission)**

   The title page should contain the following information in BLOCK LETTERS not exceeding 16 points:

   - Thesis title
   - Name of Candidate (with qualification(s) in brackets)
   - The words: "A THESIS SUBMITTED FOR THE DEGREE OF <NAME OF DEGREE>"
   - Department: DEPARTMENT OF <NAME OF DEPARTMENT>
   - Name of University: NATIONAL UNIVERSITY OF SINGAPORE
   - Year of first submission of thesis: If the thesis is resubmitted in a subsequent year, the year of submission to be indicated on the title page should remain as year of first submission.

   - If the candidate only had one supervisor, there is no need for the words ‘Main Supervisor’ following the supervisor’s name.
   - Internal Examiner(s) should be listed first before External Examiner(s), if any.

   **Sample of Thesis Title Page:**

   ![Sample Title Page](image)

   **Note:**

   The Supervisor(s) and Examiner(s) information is a new requirement to be included in the final thesis title page with effect from Semester 2 of AY2016/17. However, candidate should refer to the Outcome of Thesis Examination/Re-examination/Oral Exam letter if this information is required to be included in his/her **FINAL** thesis title page.
(ii) **File Format**

The thesis which is to be uploaded in the ETD system must be in PDF format.

Thesis can be submitted as a single file or as separate files. Separate files are recommended if the thesis document is larger than 30 megabytes.

If you submit a single file, it is recommended that the filename be your name with surname in front and your initials, for e.g. Paul Tan Chong How (TanCHP.PDF).

If you are submitting separate files, it is recommended that you name your files so that it will be sorted in the sequential order of your thesis although this is not mandatory (for e.g., you should use 2 digit numerical codes for numbers in your filenames - 01Chap.PDF, 02Chap.PDF, etc. to allow sorting alphanumerically. Please note that the order in which your files will be sorted will be according to the sequence in which you upload the files. Make sure that you use the appropriate file extension with each type of file.

**Multimedia File Formats**: You may include other types of multimedia files with your thesis document. The multimedia formats that will be accepted are listed below:

- **Images**: PDF (.pdf), CompuServe GIF (.gif), JPEG (.jpg), TIFF (.tif)
- **Audio**: AIF (.aif), CD-DA, CD-ROM XA, MIDI (with timing information) (.midi), MPEG-2 (.mpg), WAV (.wav)
- **Video**: Apple Quick Time (.mov), MPEG (.mpg), Microsoft Audio Video Interleaved (.avi)

(iii) **Abstract**

The abstract of the thesis should not be included in the thesis document (in pdf format) but must be entered in the text box provided in the Electronic Thesis & Dissertation (ETD) System at the time of uploading your electronic thesis. This abstract must not exceed 150 words.

2. **Process for Submission of the Electronic Thesis**

After your thesis has been examined and you have made the amendments to the satisfaction of your supervisor and/or oral panel members (for doctoral students), or if no amendments are required; you are ready to upload your thesis to the Electronic Thesis & Dissertation (ETD) System.

You should start by preparing the PDF copy of your thesis and check to ensure that you have conformed to all the specified format requirements. Check that there are no conversion errors, no missing pages, all tables/figures/illustrations have been inserted correctly and that the navigational links are working properly. Any error will result in delay in the degree conferment process.

Submit the following endorsed forms downloaded at [https://myportal.nus.edu.sg/studentportal/eservices/gd/](https://myportal.nus.edu.sg/studentportal/eservices/gd/) to the Student Service Centre (Level 1, Yusof Ishak House, Kent Ridge Campus) or Student Services@Bukit Timah Campus during office hours:

- Form RO.86/03 “Supervisor’s Report on Amended Graduate (By Research) Thesis”; OR
- Form RO.87/03 “Report on Amended PhD Thesis (After Oral Examination)”; OR
- Form RO.667/09 “Electronic Thesis/Dissertation ("Thesis") Submission”, with the necessary copyright clearances, if applicable; and
- Feedback on Research Guidance form (obtainable from respective Department or Faculty/School).

**Note**: Students of the Yong Loo Lin School of Medicine are also required to complete and submit a Career Survey Form (FGPC-03-04) to their Department. Please download the form at [https://myportal.nus.edu.sg/studentportal/med/gr/forms_SOM.html](https://myportal.nus.edu.sg/studentportal/med/gr/forms_SOM.html).

The documents submitted to the Student Service Centre would be routed to the Registrar’s Office on a daily
basis. After the receipt of the forms, Registrar’s Office will then set the submission period of **one week** for you to upload your electronic thesis, of which you will be notified via your NUS email account.

3. **Confirmation and Acceptance of Electronic Thesis**

You are required to check that the uploaded thesis is the final, complete and correct version. This is important because your electronic thesis will be accepted **without** any further verification from either the Department or Supervisor(s). You will also need to ensure that the format of your uploaded thesis is in accordance to the requirements in this document; and that your signed Declaration page has been included.

You will be informed via your NUS email account once you have successfully uploaded the thesis. For your information, you will **not** be able to login to the ETD System once your thesis has been successfully uploaded.

If you require an extension of the submission period to upload your thesis, you may submit a request for an extension to Registrar’s Office via email (gdhelp@nus.edu.sg), cc your supervisor(s) and your Department administrator.

If your thesis is categorised under unrestricted access, your electronic thesis will be available for worldwide access after the degree has been conferred. You can access your thesis through the NUS Digital Library website at [http://scholarbank.nus.edu.sg](http://scholarbank.nus.edu.sg).

4. **Access Levels for Thesis**

5. Opting in or out of ProQuest Dissertations and Theses (PQDT)

ProQuest Dissertations & Theses (PQDT) is the world’s comprehensive repository of PhD and Master's theses. The database has thousands of subscribers worldwide with millions of searches made annually. Theses and dissertations which are archived in the ProQuest database is listed in the PQDT and this helps to enhance the visibility and accessibility of each student's works for the academic community.

NUS has partnered ProQuest from 1 Sep 2015, allowing theses of NUS graduates who chose to opt-in to PQDT appear alongside those of other renowned universities as the primary source used for theses search in top universities. This gives greater recognition and exposure of NUS faculties and authors' research.

You have an option to allow your thesis to be archived in the PQDT and this decision has to be done both manually and electronically via:

(i) Form RO.667/09 “Electronic Thesis/Dissertation ("Thesis") Submission"

If you have chosen to opt-in, you will need to declare that you are indeed the author and that you have not infringed any copyright. ProQuest requires authors to give permission to the PQDT Author License and to accept the PhD and Master’s Dissertations and Theses Dissemination Agreement (https://share.nus.edu.sg/registrar/student/info/ProQuest-Agreement-with-NUS-Author.pdf). The acceptance of the Agreement will be done online when you upload your thesis at the ETD System.

At any point in time, you can also withdraw your thesis from PQDT by notifying ProQuest via email (disspub@proquest.com). More information on ProQuest can be found at the following link: http://www.proquest.com/.
