To: Students taking LAF2201 French 2 or LAF3203 French for Academic Purposes under the SEP Language Preparation Programme in Semester 2, AY2017/18

The period of registration for Semester 2, LAF2201 French 2 and LAF3203 French for Academic Purposes is from Monday, 4 December 2017 (9am) to Monday, 11 December 2017 (11.59am). The link to the registration website is https://ap4.fas.nus.edu.sg/cgi-bin/FAS_SLP/ISIS_sep_modreg.pl

Below are the guidelines on registration procedure:

1. You must indicate 3 preferred choices for LAF2201 and 2 preferred choices for LAF3203, and there are 2 attempts for you to change your choice within the registration period. Please note that we may not be able to allocate your first preferred choice to you.

2. Please note that we will not accept any request for pre-allocation after this registration ends. Students will have to bid for the modules through CORS.

3. It is important that you check and plan your timetable carefully before indicating your preferences for lecture classes. Please ensure that there is no lecture timetable clash. You may check the timetable for the French modules through FASS website at https://www.fas.nus.edu.sg/resources/academic-matters/modules-offered.html

4. Results of allocation will be posted on CLS website at http://www.fas.nus.edu.sg/cls on Wednesday, 3 January 2018, at 11am. The module (lecture group allocated) will be pre-allocated to you and 1 point will be deducted from your account on 2 January 2018.

5. In the event that you decide to drop the module after the release of result, 1 point will be deducted from your account.

6. If you decide to change your lecture group after the pre-allocation, we will not be able to accede to your request if it is due to personal reasons, e.g. working part-time, giving private tuition, personal activity outside school etc. You can drop the module online and bid with other students through CORS for another lecture group. Should your bidding attempt be unsuccessful, you will have to wait until the end of the bidding period for any balance vacancies for the module. However, there is no guarantee that there will be vacancies left for you. In other words, any changes to the lecture groups must be managed at your own risk.

7. After lecture group allocation, change of lecture group due to timetable clash is only allowed if there is a clash with your core modules and/or only one session is offered for your Home Faculty module. If this is so, please find someone in SEP LPP to swap with you. The steps to be taken will be as follows:

   a) Go to the Centre’s website (http://www.fas.nus.edu.sg/cls) to look up the SEP LPP students’ names and their lecture groups. Follow the link under NEWS AND EVENTS, SEP/LPP RESULTS.

   b) Check with the students from the group that you would like to attend by sending them an email using your and their NUS email accounts. Ask them if they are willing to do a mutual swap of lecture groups with you. All email addresses can be found in the address book in outlook.

   c) Once you have found a student who agrees to do a mutual swap of lecture group, both parties have to write an email to request the change.

   d) A copy of the official time table from CORS is required for swapping from both students.

   e) 1 point will be deducted for swapping from both students’ CORS accounts.

   f) Mutual swapping has to be done before CORS bidding ends.

8. Please inform us by Thursday, 7 December 2017 (12pm), if you have decided to opt out of the programme.

9. Please note that your registration is subjected to meeting the pre-requisite of the next module and you are not required to register in the MPE system.

   If you do not register for the lecture group by the stipulated timeline, we shall presume that you decide to drop the module.
For further queries, you may contact Ms Ong Meng Choo at clsomc@nus.edu.sg for French modules.

Thank you.

Lee Pei Ying
